WORLD ASTHMA DAY!

146
142

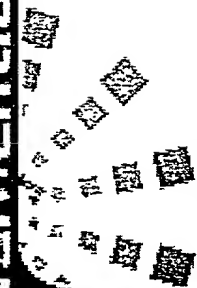

Structured on the concept of virtual convention center, the WebVention™ site flows through all facets of a virtual convention. Based on the power of the Internet, WebVention attendees from around the world can simultaneously view/hear LIVE broadcasts, participate in global chat sessions, and experience medical education and communication in an exciting new way.

(The GINA home page is being revamped to provide better access to WebVention materials. The key things that should be visualized on the GINA home page are: the Register for WAD WebVention Now! message and the WAD Activities and Contacts list availability message. Clicking on the registration button should lead to the WAD WV registration page 1. The Activities and Contacts button should lead to the A&C list organized by countries. All US A&C listings are being done by the NAEPP and will be on their website. Dr. Hurd will be getting this address so that we can link to it. These 2 buttons on the GINA home page should be prominent and attract attention.)
